

Dear Daniela,

The estate Brancusi has sent us some instructions regarding the way Visarta should to handle the requests.

If these preliminary conditions are not fulfilled, permission would not be granted by the Estate :

- Any request for authorization has to be sent at least three months before the publication or the completion of the project : it is publishers' and users' responsibility to take into account the time factor in scheduling their project.
  
- Secondly, in case of an exhibition, and advertisement, or a monographic publication, the following information has to be sent too ADAGP with the request :
  - An abstract in French or English, clearly describing both the objet of the request and the time frame of applicability of the licence.
  - The list of the images / photos / film clips extras (legend and images) to be used, clearly referenced in French or English for details.
  - For texts by Brancusi, the list of quotes exceeding the accepted limit, or better the electronic copy of the entire document that is to be approved for copyright.
  
- Thirdly, if the object of the request is a film proposed to broadcasting by a TV channel, the script of the movie, as well as an advanced copy of the film has to be sent to ADAGP.

Thank you very much.
